

# Excellent System ramps

Modular Ramp Solutions.

Excellent System ramps can be used as threshold ramps at door entrances and come in 4 different ramp kit sizes or "Kits " Within each kit are enough pieces to make up the marked size of ramp. Alternatively the ramp kits can be joined together to make up ramps that are wider, longer or higher as required.

- Can be assembled to fit any opening, door step or platform - regardless of shape,
- Can be dismantled and reused at another location or rebuilt into totally new ramps
- Modules are portable and as easy to assemble as children's building blocks
- Non-slip surface
- Non-permanent structure can be easily removed or lifted
- **Can be used inside and out side**
- Will not hold water.
- NOTE : suitable for laying on top of a hard surface. Not suitable for laying in top of carpet.

## Ramp Kit 1
