

Hospital Bed Mattress

Designed for institutional use on a profiling bed.

Fits most standard hospital beds.

Foam options:

Standard economy foam.

Multi lay foam with top lay memory foam for basic pressure relief and great comfort.

Visco elastic two way stretch water proof cover + breathable cover with hidden zip.

Foam has - Antimicrobial protection, Fire retardant, International standards for hospital mattress's BS 5852 & BS 4735

Can be customised to suit your needs.

Optional :

Pleated head section so the mattress folds more tightly reducing the likelihood of the user sliding forward as the head section raises.

Cleaning

Cover can be wiped down with hot soapy water followed by sodium hypochlorite 1000ppm. Can also use a 10% alcohol w/v if wiped off immediately. If heavily soiled, the cover can be removed and laundered in a domestic washing machine on warm, gentle cycle, using Luxflakes. Do not use PHENOLS(eg Stericol, Hycoline, Clearsol)

Covers are fire resistant 5 Complies with BS7177: 1996 for medium hazard
