# MultiFit Equipment, Not Yet On The Common List

Multifit Equipment 2014 - 2015

## Leg Lifter

The Multifit LegLifter is a power-driven appliance designed to gently lift a person's legs from a bedside seating position to the surface of the bed. It is proven to be a successful mobility solution in providing independence for elderly and disabled clients. For therapists and caregivers, it saves considerable time and physical exertion.

## Easy Access Bed

The Easy Access Bed is the ideal solution for a person who finds it hard or impossible to get in and out of bed. For many people this can mean the difference between staying independent and also relying on the help of others. The Easy Access Bed transforms into a tilted chair to assist you to stand up with minimal effort.

It is many pieces of furniture in one. It transforms smoothly and seamlessly from horizontal or legs elevated bed to recliner, an upright chair and finally to its tilted position to facilitate standing.

## Shower Insert

The Shower Insert is a custom made platform that raises the floor of your shower to the level of your threshold step. In doing so it provides level access to any shower. The Shower Insert is a cost effective solution compared to alternatives, doesn't add significantly to the clutter of disabled equipment in the house and still enables other household members use of the shower. A Shower Commode chair can also be used with this system.

## Bathing Cushion (Bath Lift)

The Bathing Cushion is simple to use, lowering you gently to the bottom of the bath. Once there you can choose whether to leave a small amount of air in the cushion to act as a back support, or release all the air to lie right back and bathe as normal.

When you have finished your bath, the Bathing Cushion can be re-inflated using our Airflo compressor to lift you steadily back up level with the top of the bath.

## Surfer Bather (Paediatric Bath Lift)

A powered elevating bath lift for children, which minimizes moving & handling risks to therapists, parents and carers alike. The Surfer Bather Bath Lift will make bath time fun again for those parents and carers who struggle to lift the child into and out of the bath. The Surfer Bather will hold the child securely in the seat both during the transfer into and out of the bath, and during the bathing process itself.
