

# Shower Remote MF 6/3A

Multifit Hospital Supplies, Free Fax 0800 102 800 Free Phone 0800 102 803

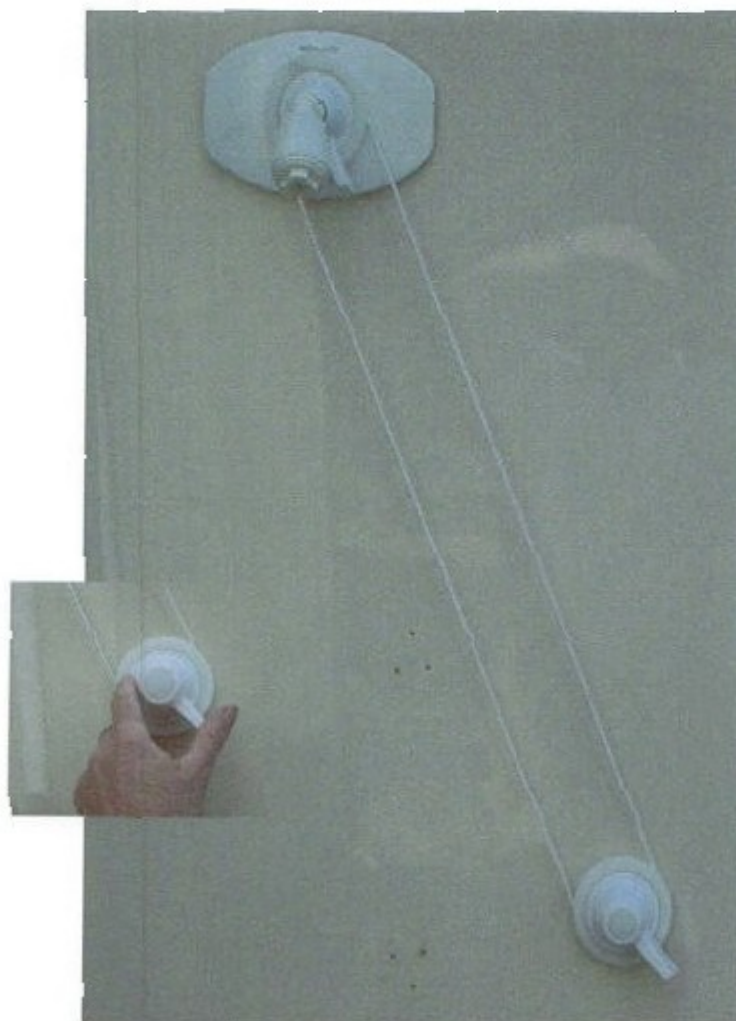

## Make it easier to turn the shower on and off, with out the need to do major bathroom alterations .

Does your client have a problem reaching up to the turn the shower on and off? Well here is a very cost effective solution. It's a shower remote that can turn the shower on and off from the position of your choice

Just remove the existing shower rose and lever, replace the lever with the one in our kit, replace the rose, attach our shower remote in the position of your choice, connect the braided cord . Now when you turn the remote, you turn the mixer on and off .

No plumbing required and installs in minutes

Full installation instructions included.

**N B . Only fits  
the Felton  
brand of  
shower**

If your clients shower mixer is another brand, replacing the shower mixer with a felton is still much cheaper than replacing the linings and lowering the mixer .

*Shower remote attached to the existing Felton shower mixer with braided cord. Enables the shower to be turned on and off from a lower position of your choice .*
