

Lazy Boy Chair Raiser MF 1/3

MultiFit

Your Independence - Our Innovation

Lazy boy chairs have a narrower base than the width of the chair, causing a safety issue when the chair is raised. So we fitted our raiser with splayed feet to give extra stability. The rocking motion of the chair can cause the chair to jump off the raiser so we fixed the raiser to the chair with two strong screw clamps, that you can adjust by hand.

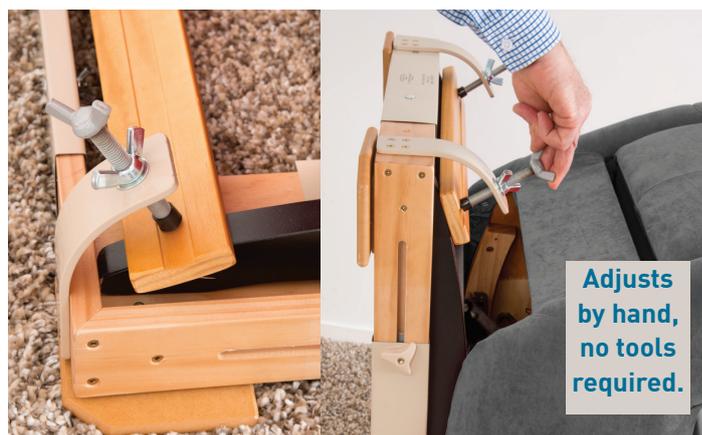

- **Re Issuable** - Robust timber / steel construction enables this item to be re issued easily.
- **Cost effective** - Raisers sold 25 years ago are still in service today.
- **Easy to fit** - Telescopic adjustment ensures you get the perfect fit easily.
- **Safe** - Independently tested for strength and stability to ensure your safety.
- **Max user weight** - 380Kg + the furniture.
- **Chair stays in place** - The sides of the raiser clamp securely so the raiser stays in place, fits securely and will not work loose over time
- **Stays on the raiser** - Clamps at the rear hold the raiser to the chair.

Lazy Boy Chair with Raiser fitted

Guarantee

1. Delivery within five working days from order or we will treat your entire department to a morning tea.
2. The equipment will fit or we will customise one that will.
